

Materials List:

- 2 Euro Style Concealed Hinges
- 2 Magnetic Release Child Safety Locks
- 1 Sheet of 1/2" 2'x4' Walnut Purebond Plywood [As I discuss in the YouTube build video I would use 3/4" plywood if I was to make this again. You will need to adjust the measurements of the plans if you end up using 3/4" vs 1/2" plywood.]
- 4 Eye Hooks for containment chain
- Length of zinc coated chain, anything will do.
